panions to Reach North Pole in a Balloon in 1897.

Copenhagen, Nov. 12.—There is reason to believe that the body of Prof. S. A. Andree, the Arctic explorer, who, in 1897, made an attempt to reach the north pole in a balloon, has been found on the coast of Labrador. A letter received here reports that Captain Chalker, skipper of the American schooner Pelope, of Conception bay, Newfoundland, discovered in Northern Labrador, a cross bearing the name "Andree," and says that beneath this cross he fonud a body and a box of documents.

The letter, which came from the Canstan of the Inga, was sent from Indian Side, Labrador, and states that the schooner Pelops arrived there from Cape Mugford, Northern Labrador. Captain Chalker reported that he went inland at that place cross, on which was inscribed the name "Andree." He dug under the cross and found human remains and a box containing papers. Chalker said that he removed the cross, but he refused to say whether or not the papers were in his pos-

## **NEWARK BOY** RECEIVES NICE CASH PRIZE

Awarded \$350 Check In Magazine Contest-Had Compelition From All Over Continent.

Benjamin Evans, 18, the son of Mrs. John W. Fvans, of 108 Moull street, North Newark, and a student in the Newark high school, junior class, has just been avarded a cash prize of \$350 as one of the winners in a prize contest, which the Saturday Evening Post has just brought

The Newark boy received his check Wednesday evening, and immediately acknowledged receipt of it.

The contest in which the Evans lad was a winner was opened several weeks ago. The winners were awarded prizes according to the number of points they secured in the contest. Points were allowed for the greater number of papers sold within a given time, the greater number of special heliday issues sold, the remitting of cash by given dates, etc. The prizes were awarded in classes, the Newark boy being the second prize winner, the \$350 being given for 21 points. The first prize was \$500 for 21 points in anof ter class. The third prize was won by a lad in Maine for 20 points.

The contest covered the entire district of North America reached by the paper, and the henor to the Newand young man is greatly apreciated by him and his friends. In speaking to an Advocate man. Thursday morning, he said:

'I had hoped to be picked a winner in the contest, but at that it was quite a surprise to me when I received my check last night. Through the columns of The Advocate I want to thank my friends who aided me in being placed among the list of Winners.

A Paying Investment.

## FUTURE OF THE

The recent election shows conclusively that the public mind is treading back towards more conservative methods in National administration. In spite of Judge Taft's perscnal loyalty and affection for President Roosevelt, he has been generally credited with being a far more conservative man than the President, and it is significant that in New York and New England, where the Republicat feeling against some of the President's policies and methods has been general and outspoken. Mr. Taft outstripped the majorities which Rosein the height of his popularity. It was Mr. Taft the lifelong conservalive, not Secretary Tait the immediate representative of President Rooseveit, whom the people selected as their next president.

This does not mean that the people are inclined to undo, or to fail to continue, the really needed reforms of recent years. It does mean that they are feeling after quieter, more constitutional, and really more effective means of reform than the stormy agitations of the past ten years have developed. Excessive noise in machinery of any kind usually means mal-adjustment of parts, wasted energy and diminished and defective Health, of the City of Newark. State or put. It has meant just that under of Ohio. President Roosevelt and it was the recognition of a quieter and more constitutional temperament in Mr. Taft that gave him his majorities.

## Why a Sunray Heater is the Best

Its capacity to circulate a large volume of hot air is what makes the Sunray Heater so effective. Its power to take up great quantities of cold air off the floor and discharge it directly into the center of the room heated to a high temperature is unequaled by any gas heater on the market today.

The Sunray Gas Heater has the hottest circulating chamber and will force the hot air to travel farther than any other gas heater. The hot air from the Sunray is not discharged up against the ceiling to blacken and make a dirty spot, but is sent directly into the room where it is needed and will do the most good. Sunrays are sold under a positive guarantee to give satisfaction.

#### Anty Drudge Tells Why Washboilers Are So Cheap.

Mrs. Bargain Hunter—"Oh, Anty! I see by Bargain Brothers ad. in the papers they're selling dollar washboilers for fifty cents."

Anty Drudge-"No wonder. Since I've told the women of this town how much better they can wash clothes with Fels-Naptha in cool or lukewarm water, summer and winter, without boiling, they have no use for washboilers. The stores can't sell 'em to women who have learned the new way of washing, and that's why they're so cheap."

Fels-Naptha takes the dirt out of clothes instead of leaving it to elbow work on a washboard.

Little rubbing is necessary and no boiling or scalding.

Lukewarm or cool water—never hot. Boiling weakens clothes and hard rubbing wears them out.

Clothes washed the Fels-Naptha way last longer and are whiter. sweeter and cleaner.

Recently a story has been going the rounds regarding a Columbus man, wno some months ago dropped by accident a valuable ring in the waters It was learned from what is re- of buckeye Lake, and who recovered it from the stomach of a fish caught in the take. This was considered a the same class with the following: During the month of August of this year Mr. G. E. Miller, manager of the C. R. Parrish Furniture store of this city, in company with a number of friends, spent a few days camping on the banks of the White Woman raver in Coshocton county. One day Mr. Miller was seining for minnows in the canal near Walhounding, when he dropped his fine gold watch into the water, but was not aware of the fact at the time. To the watch was attached a leather fob with a medal desk charm. Mr. Miller had no idea where he had lost it and gave up all hopes of ever seeing it again.

Wednesday night a man named Davis, residing at Walhonding, was in Newark and called on Dr. P. H. Cosner, who was one of the camping party, and showed him a watch that had been found under very remarkable circumstances. He said that about one month ago a large catfish, weighing 25 pounds, had been caught in the White Woman river, in the s'omach of which had been found the watch. Dr. Cosner, who was well acquainted with the fact of Mr. Miller losing his watch, immed-ately called that gentleman up by 'phone, notified ' lim of the finding of the watch and asking him to give a description of it. This Mr. Miller did, and was overjoyed when the watch was returned to him. It is in comparatively good condition, and with a little work will be as good as ever.

Presents For Girls-Dainty Aprons of Dotted Swiss For Coquettish Maids - How Handkerchiefs Are Utilized.

If you know a pretty girl who wishes to win the heart of an ardent admirer, make a dainly apron for her and send it for a Christmas gift. The aprons illustrated are both dainty and useful at the same time. The surplice apron is made of dotted swiss and is finished with bands and ruffles of lace. The pockets and shoulders have decorations of soft wash ribbon. White silk is used for the other model, which is trimmed with hemslitched ruffles and black vel-

Really there seems to be no end to the number of ways of using handkerchiefs besides the orthodox fashion, and a new idea is to take a sheer one showing an elaborate but very fine embroidered border and work it in the center with a scattered blossom design, wild roses, perhaps, losing their petals over the surface, or tiny bunches of buttercups here and there carelessly arranged. When complete it is applied diamondwise to a square of fine cambric, the material being cut away underneath. Backed by a second piece of cambrie it becomes a very dainty pillowslip either for a baby carriage or as a head rest for an invalid. A narrow beading is sewed all around the

Quite a number braved the storm and were in attendance at Tuesday's meeting. Mrs. King led devotional so vice, reading the lesson, the 66th Psalm. The business part of the meeting was taken up by the reports of superintendents, several showing very satisfactory results. "Blest be the Tie That Binds" was then sung, while one new member was received. Next week there will be a Bible rending by th Rov. Mrs. Swartz. All who have heard these readings will want to be aresent.

## EVERETT

WILL CARRY INSURANCE CASE TO CIRCUIT COURTH—AND BEEN REMANDED.

News of the Various Offices of the Licking County Court House Found by Reporter.

The case of the Edward H. Everett company against the German American Insurance company, in which the claintiff such to recover on an insurthe e policy, is to be carried to the Circuit court by the plaintiff On the trial of the case in 1905, the jury returned a verdiet for the plaintiff. The Supreme court reversed this indgment. On the retrial in the Common Pleas court that court directed a verdict in favor of the defendant, the question turning upon whether as provided in the policy, a demand for an appraissal of the loss had been made. The plaintiff claims ed that such demand had been waived by the insurance company. The less occurred in 1961 by reason of Octone and lightning.
